

CHAPTER 17  
AIRPORT OVERLAY ZONE, AOZ

17.12

RUNWAY LARGER THAN UTILITY WITH A VISIBILITY MINIMUM AS LOW AS 3/4  
MILE NON- PRECISION INSTRUMENT APPROACH - HEIGHT LIMITATION

The height limitation in a runway larger than utility with a visual minimum as low as 3/4 mile non- precision instrument zone slopes upward one foot vertically for each 34 feet horizontally beginning the centerline elevation at the end of the runway and extending a distance of 10,200 feet from the end of the runway.
